SUMMARY

Data analysis enthusiast with knowledge of Excel, SQL, Python, and Power BI. Built projects involving sales data analysis, dashboard creation, and data visualization. Comfortable working with datasets to identify trends and present insights clearly. Interested in pursuing a Data Analyst role to apply and further develop these skills in a professional environment.

EDUCATION

B.TECH Information Technology Anjalai Ammal Mahalingam Engineering College	2023 – 2027
CGPA – 8.25 (until 5th semester)	
HSC (State Board) Government Higher Secondary School Thiruneipair	2022 – 2023
Score – 75%	
SSLC (State Board) Government High School Mangudi	2020 – 2021

EXPERIENCE & INTERNSHIPS

Data Analytics Internship IBM	March 2026 – Present
- Gaining hands-on expertise in IBM Cognos Analytics to build business intelligence solutions and visualize complex datasets. - Developing reporting frameworks to streamline data interpretation and support data-driven decision-making.	
8Queens Software Technologies Private Limited	4 July 2025 – 18 July 2025
Completed a 15-day internship at 8Queens Software Company, where I learned about project workflow and basic development processes.	

PROJECTS

DigiDrive – Digital Asset Management System

Developed a web-based platform for uploading, storing, and organizing digital files, using React.js for the frontend, Node.js/Express.js for backend APIs, and MongoDB Atlas for cloud storage; deployed via Vercel and Render.

Zomato Data Analytics Dashboard (Power BI)

Developed an interactive Power BI dashboard to analyze restaurant performance, customer ratings, and pricing trends. Performed end-to-end data processing—using Power Query to clean messy datasets and handle missing values—to ensure high data accuracy. The final dashboard features dynamic visualizations that identify top-performing restaurant chains and reveal the correlation between price points and user satisfaction.

Retail Sales Analytics Dashboard

Created interactive Excel dashboards analyzing 200+ sales records to identify regional and product performance trends, supporting data-driven business insights.

ACHIEVEMENTS

- Finalist – IBM Node.js & REST API Hackathon, conducted under the Naan Mudhalvan program.
-

TECHNICAL SKILLS

Data Analytics

- Microsoft Excel
- SQL
- Python
- Power BI

Web & Tools

- HTML, CSS, JavaScript
- Node.js
- Git & GitHub

LANGUAGES KNOWN

- English – Working proficiency.
- Tamil – Native proficiency.
